

# DIY Printable Halloween Charades

**DIRECTIONS:** Cut out each of the Halloween charades below and place them in a bucket. Split the group into 2 teams. Team A will pick one player as the actor. This player will draw a charade and will then have a specified amount of time to act out the charade and have the other team members guess. If Team A doesn't guess the right answer before the timer ends, then Team B gets one guess for the correct answer. Remember, in charades there is no talking and no props allowed. Just use your fantastic acting skills!
